

PRECIS INTRODUCTION TO UNIVERSAL WILL - DH10 AUGUST 21-22, 2021

Talk # 1 Intro to UW & how it supports the Pearl – Nancee

If we are going to live the life of the Pearl we are in much need of a great deal of support - as we transition back and forth from personality to personal beingness, we will have to work with the habitual patterns of our personalities and the rubber band like snap back into our usual, familiar selves.

So what kind of support do we need at this level of development? To live the life of the Pearl, working, relating, living as a person of essence?

As you have seen in our work, we work on two levels at the same time: we are working on completing and resolving the developmental issues from childhood at the same time, we are working on connecting with the Universal forces of our TN. Differentiate between individual will and UW.

Our own development though it may feel solitary and up to us actually exists in a much larger field of consciousness. The universe has intelligence, power, ground and awareness as a whole and it is the nature of everything, manifest and unmanifest. **The Platinum or Universal Will is the larger support, the ground for the essential person.** It appears like Platinum - solid, dense, immense, powerful and vast. Has purity, feels mature and strong. UW feels like a full dense presence within you and beyond you. This aspect of TN can manifest itself as a kind of Will that doesn't just support one individual, but that supports all, supports a greater realization of TN and the expression of its possibilities.

When the aspect of UW is experienced there is a feeling that one's personal Will is supported by a bigger, more immense and more universal presence, where you feel grounded, held, supported by reality, by the universe. Feel the solidity, density and force of the universe which directs the unfolding of everything including our own process. It is personally engaged with supporting the development of each human soul. What is our relationship to that Universal Will? Don't believe in it, fear it, don't trust it, like it, can't rely on it, don't believe is cares about you...

Exercise: 15/10 discussion

Explore your own personal experience in relationship to Universal Will. Are you aware of a bigger perspective? You can be aware of Universal Will, or you may not be aware of it. If you look at your life and the situations in your life – Do you experience or do you feel the Universe Will supporting you in your life, in actualizing it, in making it happen? You can

take one area and look at it – or look at your life in general. So you want to explore all these questions about your relationship to the Universal Will.

Notice and sense into your body's relationship to ground and gravity. Do you sense ground, gravity, density... or not?

Précis: Talk #2 Support of the Father – Eugene

- Child needs two different kinds of support.
 - Mothering aspects & Fathering aspects
 - Both types of aspects can come through either sex.
 - Mothering: love nourishment we need to survive & grow.
 - mothering person expresses heart qualities of holding, softness, nourishment, warmth, love
 - Fathering: sustenance & guidance to grow, become autonomous.
 - Fathering person models the will qualities— solidity, firmness, groundedness.
 - Archetypical father represents support of Universal Will
- Our experience of UW impacted by our father's relationship to our will. Did he acknowledge, support, value your will? Or is he threatened, fearful of it?
 - Did he embody qualities of strength, confidence, solidity & being loving, capable, and mature?
- He takes us on adventures: rides in the car or taking us for a swim, riding tricycle, bicycle, teach us how to play ball.
- Helps us expand & develop our capacities, gently pushes on our comfort zones, setting boundaries, limits that are appropriate. Supports our PW!
- Un-ideal father figure.
 - Was he disciplinarian, always had to win, ignored us?
 - Was he too hard, too rough, punitive, tight, explosive, violent?
 - Was he too soft or accommodating, none of which is true support?
 - May have been verbal, physical, or sexual abuse.

- ***Mono 15m Discuss 10***

Exercise to explore history with your father in terms of his support for you & your developing autonomy. You want to see how he supported you or did not support you in being you. Did he embody the qualities of support or not? If he did, which qualities

did he embody? If his support was distorted, how was it distorted? How did your relationship with him effect your own embodiment of those qualities?

TALK # 3 NEED FOR FATHER'S SUPPORT – NANCEE

So you can see and feel how UW is connected to the father function– and is usually projected on the father, becomes associated with his image. And the issues around it are basically those of father's support for one's own personal Will.

The father is the channel through which the child can recognize universal support. Our relationship with father and his support easily gets transferred to our ideas and our Relationship with Universal Will. The child needs both the love and nourishment/comfort of mothering figure as well as the solidity, the support and the definiteness from the fathering figure. The ideal father support is a combination of love and caring, with firmness and a strength of support that guides the child into the world.

How your father was in your development –will affect your experience of UW

The fathering function – may have been your mom with more of that function and your father more nurturing – whoever it was – father's role is to guide, protect

Since the father is the vehicle for the Universal Will and its support of the soul's development, each child has a natural and deep need for the support of the father. Feeling this need, though it brings up the pain of not getting father's support, is necessary to open us to the presence of the Universal Will.

Exercise - RQs 10 each

Tell me a way you cover up your need for father's support.

Tell me a way you needed your father to support your will.

Tell me a way you experience the presence of a greater support. (15 looping)

Talk #4 Impeccability- Eugene

- Point of practice: realize the Truth, learn to live, align & realize Truth
 - Practices = recalibrate our consciousness/Soul
- Living our lives becomes path, /Life as practice
 - Impeccability: Potential practice 24/7
 - No time off, no vacation
 - Habits, patterns, deeply embedded, ignorance, delusion profound

- *Impeccability is one of the qualities of True Nature*
 - Why do anything else but be here impeccably?
 - What matters more in your life than essential reality?
 - Why not give ourselves to the Practices of DH?
 - Why don't we do our practices completely?
- Examples:
 - Do we meditate every day? Do we sense look & listen?
 - Are we inquiring regularly?
- Impeccability
 - More impeccable, the more complete, more development, more refinement, the more effective & mature our practices & life become.
- Opposite/obstacle to impeccability is indulgence
 - Knowing what is best & not choosing it.
 - Deceiving oneself about what is needed or what is true.
 - Indulgence is an expression of the ego.
- No reason not to be impeccable in any moment.
 - Applying the principles of Work / Truth
 - Applying understanding, practices you know
- Examples:
 - Coming to group on time.
 - Getting your work done.
 - Doing your meditation/sensing practice
 - Fulfilling your aims.
 - Fulfilling your responsibilities in your life
 - Executing the tasks that you have taken on.

10m TM a place in your life where you can be more impeccable

10m What's more important than being impeccable?

10m TMAWY are impeccable. looping?
